**How to join a «class team» to take online
courses**

Student's guide

Premise:

This guide is designed to help students find links to follow the online lessons on Microsoft Teams platform quickly and easily, and to find the teaching materials that each teacher will make available.

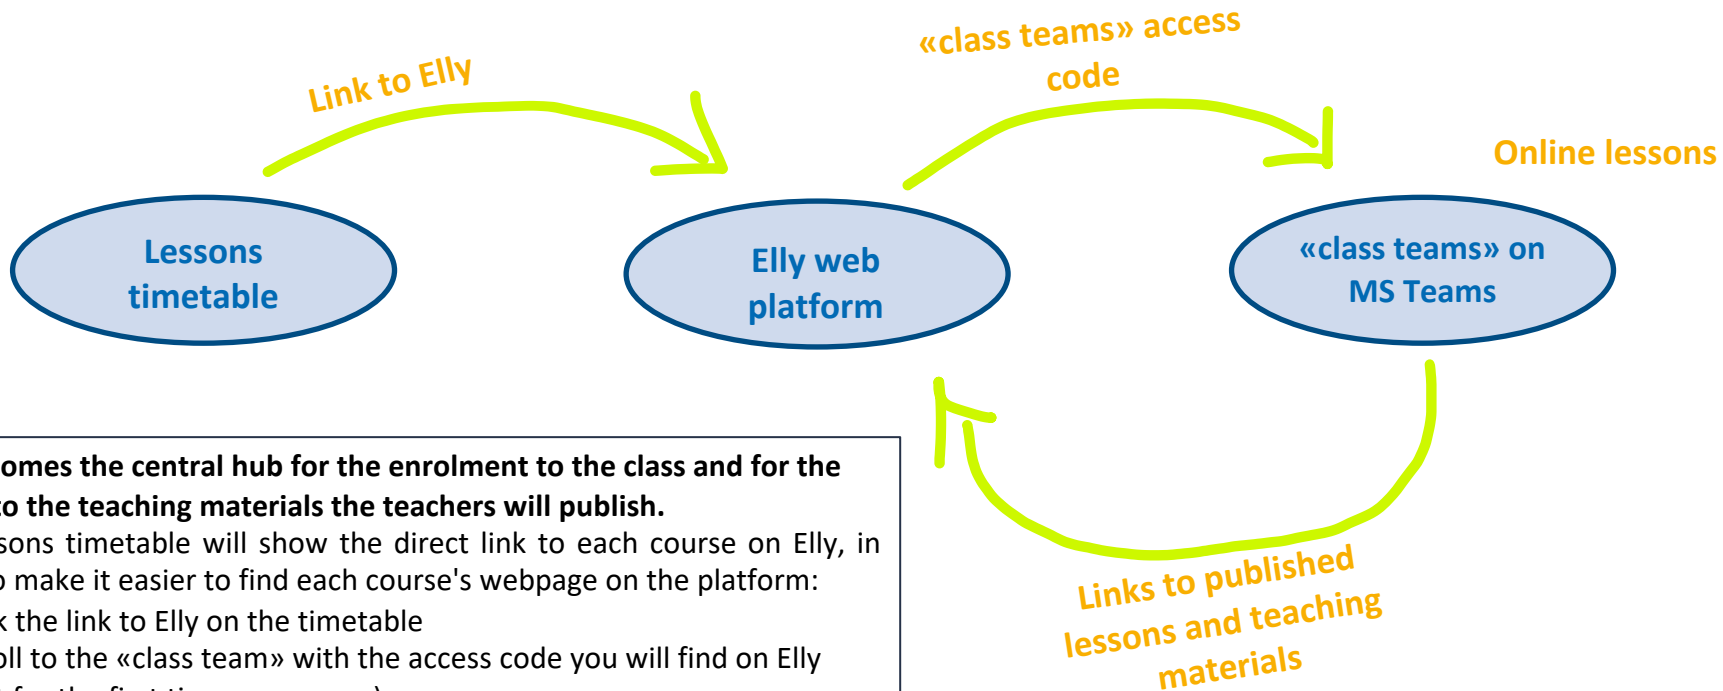

Guide index:

1. Logging in to Elly to get the «class team» access code
2. Logging in to Microsoft Teams and joining the «class team» with the access code
3. Attending the online courses with Teams

GOAL:

Facilitate navigation and access Elly web pages and «virtual classrooms»

Elly becomes the central hub for the enrolment to the class and for the access to the teaching materials the teachers will publish.

The lessons timetable will show the direct link to each course on Elly, in order to make it easier to find each course's webpage on the platform:

1. Click the link to Elly on the timetable
2. Enroll to the «class team» with the access code you will find on Elly (just for the first time you access)
3. Get your direct access to the «class team» and to all the online lessons (from the second time on)

1. Logging in to Elly to get the “class team” access code

Every student will find the direct link to the course on the Lessons timetable, in order to access the Elly 2020/2021 course page.

1. Click the link to Elly on the timetable
2. To access the content, login to the Elly portal with your login credentials

Non sei collegato.

E-mail: suocentro@unipr.it

by LMSACE.com Powered by Moodle Adapted by Ceitro, SELMA

**Use your login credentials
(see next slide)**

Users who browse the Elly portal without using the link can just search for the chosen course among the sections: Bachelor's degrees, Master's degrees and Single Cycle degrees, and then in his/her own curriculum.

1. Logging in to Elly to get the “class team” access code – UNIVERSITY CREDENTIALS

University credentials are the one you already use to access the University student career management information system (ESSE3: <https://unipr.esse3.cineca.it>). More specifically:

- If **you have already completed the enrolment process**, your University credentials will look like firstname.lastname@studenti.unipr.it, and this will also be your institutional e-mail address.
- If **you haven't completed the enrolment process yet**, your University credentials will be the code number that you got while following the enrolment process on ESSE3 information system (like *e.g.*: 10178451)^{*}, or the guest address (for example: 10178451@guest.unipr.it).

PLEASE NOTE:

Even though it is possible to **enter Elly platforms** with each kind of University credentials (firstname.lastname, code numbers and «guest»), to be able to **attend the online lessons on TEAMS and to join the teaching class teams** you can't use code numbers. You will need the firstname.lastname@studenti.unipr.it or the guest address (10187723@guest.unipr.it).

How to get GUEST credentials:

* So, if you only have a code number (like 10178451), in order to attend the online lessons on Teams and to enter Elly platforms, you will need to “upgrade” your access code number, in order to get the «guest» address. You can do it with the “Assumi username @guest.unipr.it” applet, available at <https://www.idem.unipr.it/secure/cambiouserguest> from September 10th.

1. Logging in to Elly to get the “class teams” access code

The first time you enter the courses webpage, self enrolment is required: click on «sign me in» (iscrivimi). From the second time on, you will be able to access the course webpage immediately.

Please note: Some teaching courses could require a password (registration key/chiave di iscrizione), if the teacher has set it. If it is needed, you will have to send an e-mail to your teacher to ask for the password.

1. Logging in to Elly to get the “class team” access code

You will find the **registration code**, (highlighted) posted by the teacher on the course webpage. It will enroll you in the class team, where you can attend online lessons. The following one is **an example** of an highlighted post:

ISTRUZIONI PER L'ACCESSO AL TEAM PER LE LEZIONI ONLINE

PRIMO ACCESSO AL TEAM - IMPORTANTI! - LEGGERE CON ATTENZIONE:

Il primo accesso al "team" di questo insegnamento, dove sarà possibile seguire le lezioni online, deve essere fatto: accedendo con il proprio account a Microsoft Teams e iscrivendosi al "Team Classe" con il codice sottostante fornito, come spiegato nel dettaglio nella guida per studenti "Come accedere al Team di un insegnamento per seguire le lezioni online".

IL CODICE PER ISCRIVERSI AL TEAM E' IL SEGUENTE:

1c0v9e0

Solo dopo aver fatto il primo accesso, per tutte le volte successive in cui vi collegherete, il link di accesso diretto al Team dell'insegnamento è:

<https://teams.microsoft.com/j/team/19%3aa27ba95a73364b43ae9430161e22c39%40?read=1&cv21conversations?groupId=d6506b6e-4cbd-447e-822a-43508c2ddc0d&tenantId=bb0f64c5-b7a8-41ec-babe-d7beb3faeb1c>

Please note: In order to facilitate access and management of the «class team», it is important for you to follow the instructions carefully. After the first login with the registration code provided by the teacher, you will be able to enter the «class team» just by clicking the access link below, since the registration code has certified your enrolment to the online classes.

Important: If you can't find the instructions on how to access your online classes team, **e-mail your teacher.**

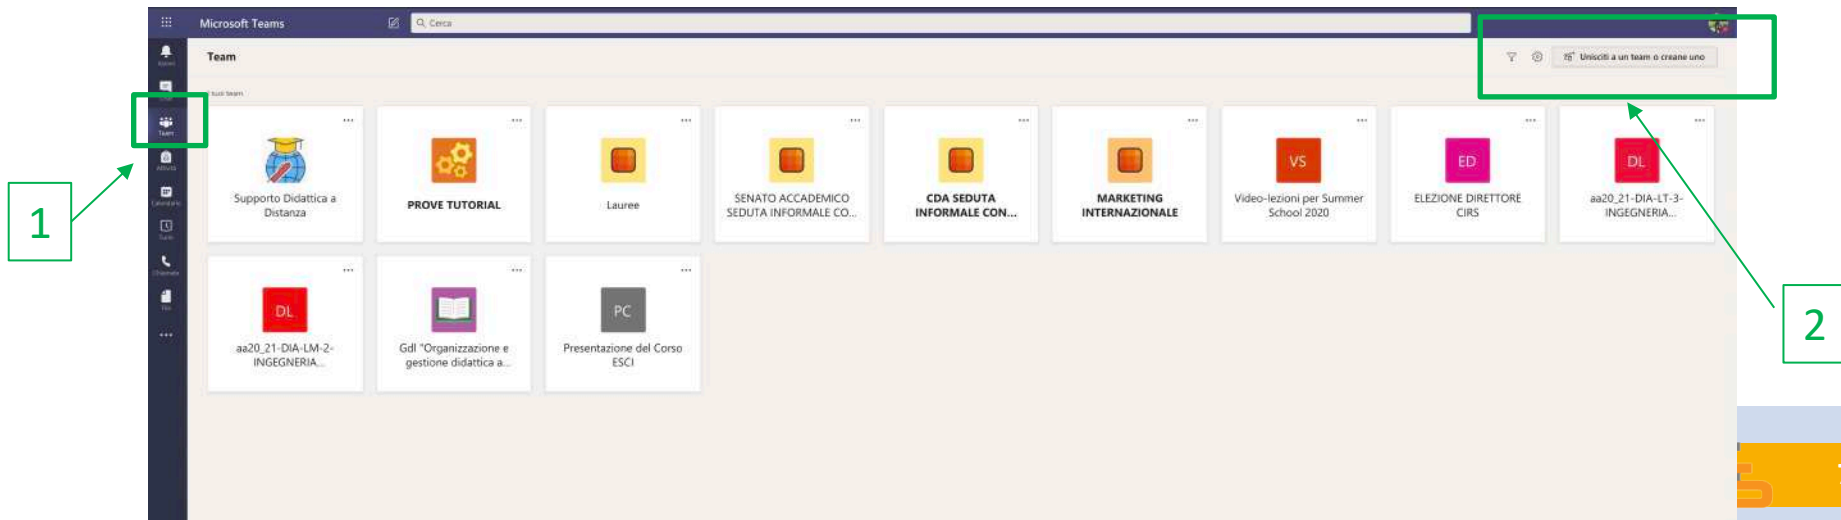

2. Logging in to Teams and joining the “class team” with the access code

After copying the code, log in to Microsoft Teams

(the STUDENT's guide on how to install and use of MS Teams is available in the Student's STARTER PACK section, here:

<http://selma.unipr.it/didattica-online/>)

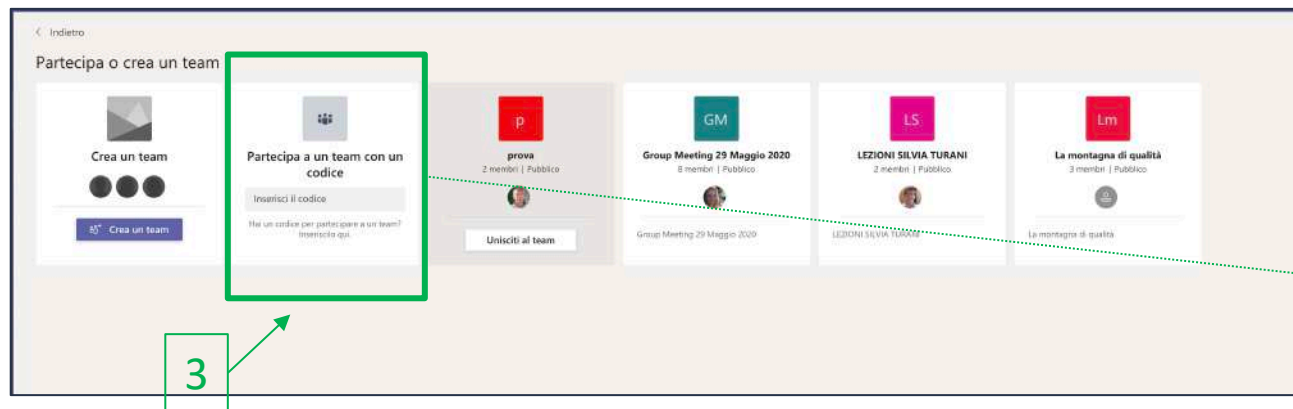

1. Select the «Team» icon in the sidebar on the left.
2. Click on «Join or create a Team» («Unisciti a un team o creane uno»), at the top right corner.

2. Logging in to Teams and joining the “class team” with the access code

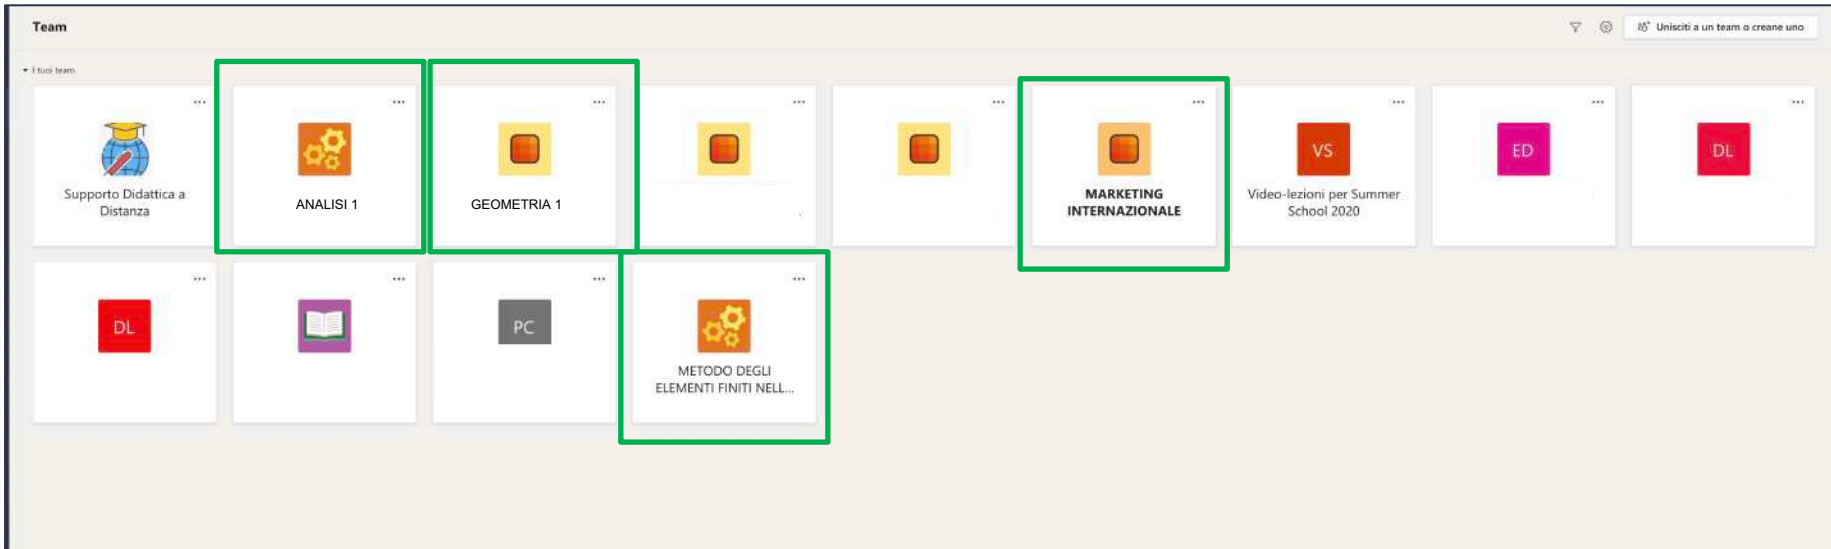

3. Click on «Join a Team with a code» («Partecipa a un team con un codice»)

4. Enter the code you copied from the course page on Elly portal

2. Logging in to Teams and joining the “class team” with the access code

From that moment on you are a member of the «class team» and are able to access the team again without entering the code, just by clicking the access link you find on Elly or in the Team section of your app, where you can find the «class teams» of all the courses you chose:

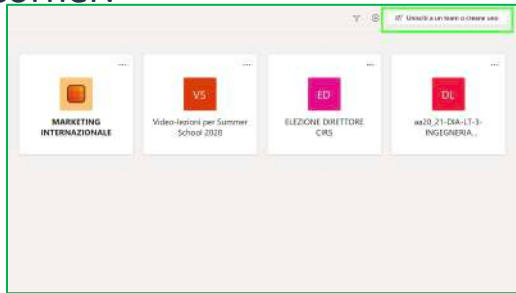

Please note: The process described in slides 3 to 8 needs to be repeated for every single course you follow.

2. Joining a public Class Team

(no access code required)

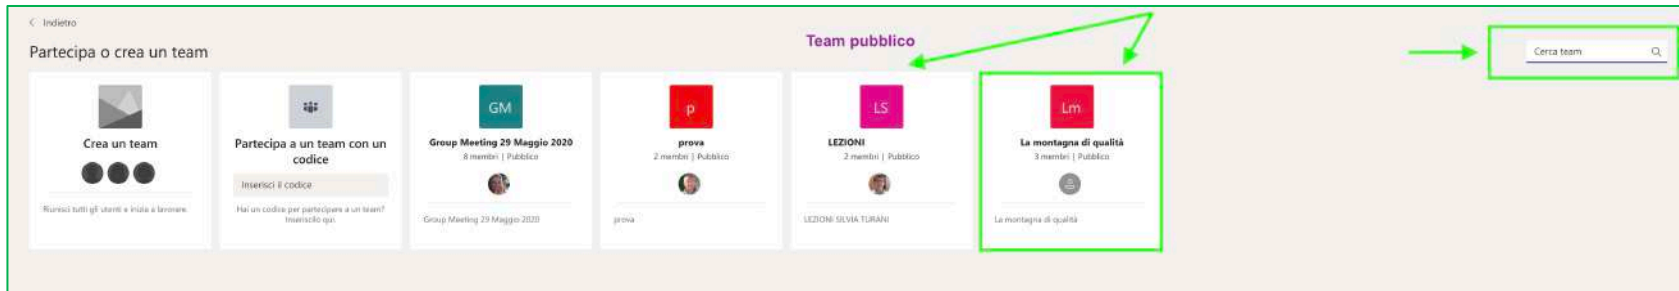

Some teachers can choose to leave the access to their course open. If so, the access is even simpler:

1. Click on «Join or create a Team» («Unisciti a un team o creane uno»), at the top right corner:

Important: If you can't find the instructions that explain whether the «class team» is public or not, or the courses name you should search for, **ask your teacher via e-mail.**

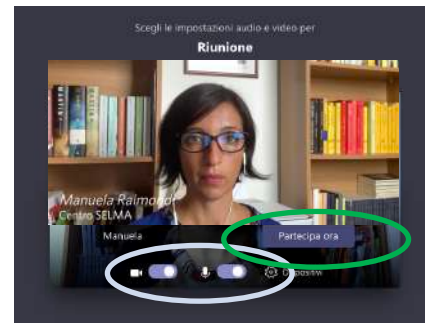

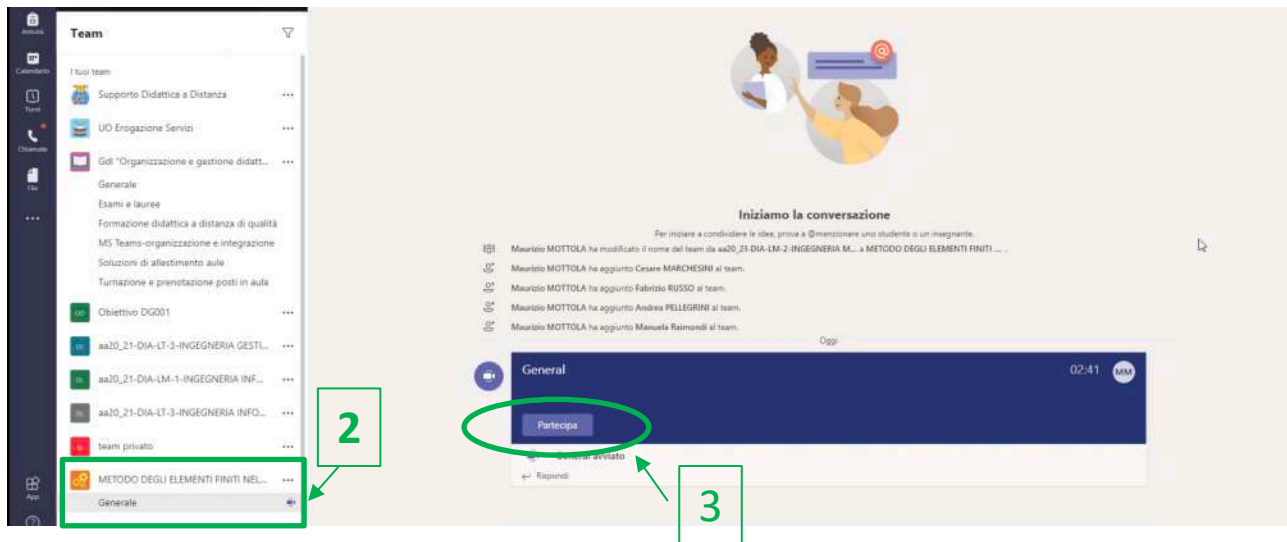

2. Select the Team, if present, or search for it in the Search bar:

3. Attending the online classes with Teams

Attending the online lessons is very simple:

1. Follow the specific instructions the teacher will provide
2. Join the «class Team» at the set time, by selecting the general teaching channel
3. Join the lesson by clicking on «Join» («Partecipa»)
4. A window will open, where you can change Webcam and Microphone settings and click on «Join now» («Partecipa ora»)

Remember: you can find the complete user guide to MS in the ONLINE LESSONS section, at: <http://selma.unipr.it/didattica-online/>

Thank you for your attention
